

PRIVACY NOTICE FOR DATA CONSENT SERVICES

A data subject (i.e. you) may use the data consent service to allow companies to access your personal data in national databases. Consent can only be given for the transfer of the data set required for a specific service, following which the data held by the state is forwarded to the selected private enterprise.

By using the data consent service, you can exercise your legal right to decide on the processing of your personal data by choosing the third parties who can access your data. The use of the data consent service and the giving of consent is always voluntary. Consent can be revoked at any time. This privacy notice provides a brief overview of the processing of your personal data by the Estonian Information System Authority when providing the data consent service. The privacy policy of the state portal eesti.ee, including the rights of the data subject, can be found at [HERE](#). The Estonian Information System Authority cares about the security of your personal data and complies with the applicable data protection regulations when processing personal data.

GENERAL INFORMATION The Estonian Information System Authority (RIA/we/us), registry code 70006317, address Pärnu mnt 139a Tallinn Harjumaa 15169, general email ria@ria.ee, data protection email andmekaitse@ria.ee, is the controller when processing personal data for the purpose of providing the functionality of the data consent service. RIA controls the processing of personal data in the data consent service, but is not responsible for how personal data is processed by the individual or entity to whom the data subject has consented to transfer their data. The respective person/entity is a separate controller when further processing the personal data of the data subject. See the privacy policy of the relevant person/entity for information on how they process your personal data.

WHICH PERSONAL DATA IS PROCESSED IN THE DATA CONSENT SERVICE? When you use the data consent service, we process authentication information (authentication method - ID card, Mobile-ID, or Smart-ID and authentication success/failure). Giving consent always starts in the environment of the service provider, from where the person is directed to the state portal eesti.ee to give consent. After giving or not giving consent, the process continues in the environment of the service provider. In addition to giving consent, the users can use the state portal to see all given consents, their content, validity periods, and history of use. Consent can also be withdrawn at any time via the consent service. Thus, we process information on authentication, the selected service provider, and consent and non-consent.

ON WHAT BASIS AND WHY DO WE PROCESS YOUR PERSONAL DATA? We process personal data for the purpose of providing the data consent service. We provide the data consent service as part of our public law function and process personal data in the exercise of our public law functions on the basis of public interest; any transfer is based on your consent. The party that further processes your personal data (the party who you have given your consent regarding the transfer) is a separate controller and must have a basis for further processing. If you have any questions regarding further processing by the person/entity you have chosen, please contact that person/entity.

WHO CAN ACCESS YOUR PERSONAL DATA? As part of the data consent service, we will transfer your personal data to the persons to whom you have given your consent regarding the transfer. RIA does not use data processors for the provision of the data consent service. Our employees have access to personal data when it is necessary for the performance of their duties and they are aware of the confidential nature of personal data. For information on whether and to whom your personal data may be disclosed by the person/entity of your choice (a separate controller), please refer to the privacy policy of the relevant controller. There are certain exceptions when we may transfer data to, for example, public authorities (for example, for investigations) - see chapter 'Forwarding personal data and processing by data processors' of the [privacy policy](#) of the state portal eesti.ee for more information about these exceptions. In any case, your personal data will not be disclosed without a legal basis.

HOW LONG DO WE RETAIN PERSONAL DATA? We are guided by the principle that personal data may be processed and stored only for the time necessary for the purpose for which it is collected. Consent is valid until you withdraw it, but no longer than the time specified in the consent request. The data and logs processed in the consent database will be kept for three years after the expiry of the declaration of intent or consent. For information on how long the entity receiving your consent for the transfer of your data will retain your personal data, please refer to their privacy policy.

DO YOU HAVE QUESTIONS ABOUT THE PROCESSING OF PERSONAL DATA? More information about the processing of personal data and the rights of the data subject can be found in the [privacy policy](#) of the state portal eesti.ee. In addition,

you can always contact our Data Protection Officer with any questions you may have by writing to andmekaitse@ria.ee. We are happy to help! You also have the right to file complaints related to personal data with the Data Protection Inspectorate (<https://www.aki.ee>) and the courts if you believe your rights have been infringed.
