

PRIVACY NOTICE OF THE DATA TRACKER

With the help of the Data Tracker, you can get information about the processing of your personal data in national databases through the self-service of the state portal eesti.ee. The Data Tracker displays queries pertaining to you, including those where personal data has been requested by a third party. This privacy notice provides a brief overview of the processing of your personal data by the Estonian Information System Authority when providing the Data Tracker service. The privacy policy of the state portal eesti.ee, including the rights of the data subject (i.e. you), can be found at [HERE](#). The Estonian Information System Authority cares about the security of your personal data and complies with the applicable data protection regulations when processing personal data.

GENERAL INFORMATION The Estonian Information System Authority (RIA/we/us), registry code 70006317, address Pärnu mnt 139a Tallinn Harjumaa 15169, general email ria@ria.ee, data protection email andmekaitse@ria.ee, is the controller when personal data is processed for the purpose of ensuring the functionality of the Data Tracker. This means that RIA controls the display of results in the Data Tracker, but **is not** responsible for queries made by other parties about the data subject. The party who requests your personal data is a separate controller and must have a basis for the request. We have outlined the datasets for which we enable tracking of submitted queries, along with the related institutions. This information can be found [here](#). The processing of personal data on the state portal eesti.ee, including in the self-service, is described in the [privacy policy](#) of the state portal eesti.ee.

WHICH PERSONAL DATA IS PROCESSED IN THE DATA TRACKER? The Data Tracker gives an overview of the queries made on the data subject from the selected database - the database that was queried, the date, the person who made the query, and the content of the query.

ON WHAT BASIS AND WHY DO WE PROCESS YOUR PERSONAL DATA? We process personal data for the purpose of providing the Data Tracker service. We provide the Data Tracker service as part of our public law function and process personal data in the exercise of our public law functions on the basis of public interest. The party who queries your personal data is a separate controller and must have a valid basis for the query. If you have any questions about a specific query, please contact the person who made the query or the database indicated in the Data Tracker.

WHO CAN ACCESS YOUR PERSONAL DATA? Responses to queries in the Data Tracker are visible to you when you make a query in the Data Tracker. The databases from which your data has been queried must also log the queries. RIA does not use processors when providing the Data Tracker service. Our employees have access to personal data when it is necessary for the performance of their duties and they are aware of the confidential nature of personal data. You can read more about whether and to whom your personal data may be disclosed by a database or an affiliated institution in the statutes of the database and/or the privacy policy of the related institution. There are certain exceptions when we may transfer data to, for example, public authorities (e.g. for investigations) - see chapter 'Forwarding personal data and processing by data processors' of the [privacy policy](#) of the state portal eesti.ee for more information about these exceptions. In any case, your personal data will not be disclosed without a legal basis.

HOW LONG DO WE RETAIN PERSONAL DATA? We are guided by the principle that personal data may be processed and stored only for the time necessary for the purpose for which it is collected. This is a regulated activity that depends on the privacy policies of the databases and their business model. We are guided by the principle that personal data may be processed and stored only for the time necessary for the purpose for which it is collected, but no longer than permitted by the statutes of the database or the law.
